AUTHOR AND SUBJECT INDEX

A

Abramson, H. A., and Peshkin, M. Murray: Psychosomatic group therapy with parents of children with intractable asthma, 87

Acetylcholine: The effect of estrus on the response of the excised mouse uterus to serotonin, and specific antigen (Kenneth L. Burdon et al), 972

Adler, Donald K., and Rapaport, Howard G.: The allergic index, 179

Aerodynamics of respiration (Clifford H. Kalb), 881

Allergenic gums: Sources of (Donald C. Nilsson), 518

Allergens: The chemistry of. XIV. Effect of heat and pH on the precipitin reaction and reagin neutralizing capacity of the castor bean allergen CB-1C (Joseph R. Spies, E. Jack Coulson, Harry S. Bernton, Henry Stevens and Armar A. Strauss), 393

Allergic children: Epistaxis in (Roland B. Scott and Roselyn Payne Epps), 728

Allergic children: Psychotherapy of parents of (Hyman Miller), 990

Allergic cough: Clinical evaluation of norisodrine syrup in (Richard L. Etter, Richard H. Jackson, and Warren J. Raymer), 667

Allergic disease: Triamcinolone in (Jerome Glaser), 510

Allergic diseases: Hydroxyzine (Atarax) in (Ines Maria H. Santos and Leon Unger), 172

Allergic diseases: Studies of chlordiazepoxide in various (John P. McGovern et al), 1193

Allergic disorders: Treatment of, with methdilazine (Angelo P. Spoto and Herbert O. Sieker), 761

Allergic encephalomyelitis: Factors affecting the suppression of, by homologous brain protein fractions (Marian W. Kies, Cheng-Mei Shaw, Willson J. Fahlberg and Ellsworth C. Alvord, Jr.), 849

Allergic index, The (Howard G. Rapaport and Donald K. Adler), 179

Allergic patient, Psychodynamics of the (Charles W. Wahl), 1138

Allergic patients: Blood proteins and electrolytes in (Jorge Raul Vaccarezza), 961

Allergic reactions, Anaphylactoid, to influenza and poliomyelitis vaccines (Joseph H. Fries and Monroe Coleman), 1130

Allergic respiratory diseases: Oral decongestant therapy in (Arthur Lipschutz), 998

Allergic rhinitis, Incidence of subsequent ragweed pollinosis in patients with perennial bronchial asthma and/or perennial (George W. Bean and Jerome Glaser), 1126

Allergies, Respiratory: A controlled study of treatment with a new nasal decongestant (Lester Stroh), 533

Allergy, childhood: An evaluation of hyposensitization in (Allen H. Kline and Charles L. Waite), 80

Allergy, Headache and (William Messer), 1117

Allergy: Incidence of, in a pediatric population. Pilot survey of 2,169 children. (Howard G. Rapaport, Sidney J. Appel and Victor L. Szanton), 45

Allergy, Nasal, in childhood. Observations in the South Florida area (Meyer B. Marks), 1110

Allergy: New frontiers in (Giles A. Koelsche), 1187

Allergy, perennial: Emotional factors relating to (Herman Selinsky), 886

Allergy, respiratory: Demethylchlortetracycline in (Cecil M. Kohn, William C. Grater and David W. Hines), 871

Allergy, respiratory: Effectiveness of methylprednisolone with methoxyphenamine in (William C. Grater), 615

Allergy, Respiratory: in children. A double-blind cross-over study for eight consecutive months with two antihistamines and a sympathomimetic drug (Salmon R. Halpern and Haskell Rabinowitz), 36

Allergy, the future of: Semantics and (Max Samter), 409

Allergy to grain dusts. III. Its incidence and relationship to insect allergy (Leonard H. Harris), 543

Allman, David B., and Green, Martin: A prototype of an asthmatic unit in a general, convalescent home, 1336

Alvord, Ellsworth C., Kies, Marian W., Shaw, Cheng-Mei, and Fahlberg, Willson J.: Factors affecting the suppression of allergic encephalomyelitis by homologous brain protein fractions, 849

INDEX TO VOLUME 18

Amell, A. R. (co-author): Studies of the dispersion of emulsified extracts by means of incorporated radioisotopes, 983

Analysis of the effect of various dosage schedules in hyposensitizing programs for allergic children, An (C. Collins-Williams, H. Edwards, H. Savage, A. Fremes, A. Cole and R. Imrie), 92

Anaphylactoid allergy reactions to influenza and poliomyelitis vaccines (Joseph H. Fries and Monroe Coleman), 1130

Angioedema: Probable role of blood volume alteration in (Ben R. Fisch, O. C. E. Hansen-Pruss and H. O. Sieker), 778

Angioneurotic edema: Causation of eczema, urticaria, and, by proteins other than those derived from food: study XVIII (historical document) (I. Chandler Walker), 783

Antigenicity of the whey proteins in evaporated cow's milk and whole goat's milk (Sidney Saperstein), 765

Antihistamines: A comparative study of atopical steroids, and pollen vaccine in the treatment of hay fever and hay asthma (L. Bagratuni), 859

Antihistamine, Clinical study of a new, dimethpyrindene (Forhistal) (J. Warrick Thomas and Frank R. Kelly, Jr.), 876

Antihistamine-sympathomimetic combination, A new long-acting, for the management of nasal congestion (Vincent J. Fontana), 1107

Antihistaminic agents, Use of (S. William Simon), 1221

Antihistaminic activity of dexbrompheniramine (Disomer) (Marian Olansky and Sidney Olansky), 415

Antiserotonin: Studies of an, compound (Ro 2-9102) using mice uteri in estrus in a Schultz-Dale apparatus (John P. McGovern et al), 1342

Appel, Sidney J., Szanton, Victor L., and Rapaport, Howard G.: Incidence of allergy in a pediatric population. Pilot survey of 2,169 children, 45

Aralen: An investigation into the use of, in bronchial asthma (Arthur Stern et al), 980

Askovitz, S. I. (co-author): The reproducibility of intradermal skin tests: A controlled study, 949

Aspergillus, Occupational bronchial asthma in a baker due to (Aaron Weiner), 1004

Asthma, bronchial, Observations in: Clinical spirography (Historical Document) (Seeley G. Mudd), 548

Asthma: Evaluation of a combination tablet of theophylline, ephedrine sulphate, phenobarbital, thenyldiamine and glyceryl guaiacolate in the treatment of chronic (Aaron D. Spielman), 281

Asthma, intractable: Management of the institutionalized child with (M. Murray Peshkin), 75

Asthma, intractable: Psychosomatic group therapy with parents of children with (H. A. Abramson and M. Murray Peshkin), 87

Asthma, perennial bronchial, in children: The value of the low dosage method of hyposensitization therapy in (Douglas E. Johnstone), 70

Asthma secondary to cardiospasm (Lowell L. Henderson and Arthur M. Olsen), 266

Asthma syndrome associated with anoxemia, hepatic and renal involvement (Joseph Harkavy), 1008

Asthma: The electroencephalogram in migraine and (R. Panzani, R. Boyer and M. Turner), 491

Asthma: Treatment of, with chlortropbenzyl (Stephen Fromer), 259

Asthmatic unit: A prototype of an, in a general pediatric convalescent home (Martin Green and David B. Allman), 1336

Atopic dermatitis: The importance of inhalant mold sensitivity in (Homer E. Prince, Lawrence J. Halpin and Morris A. Kaplan), 186

B

Bagratuni, L.: A comparative study of topical steroids, antihistamines and pollen vaccine in the treatment of hay fever and hay asthma, 859

Barkin, Gilbert (co-author): Studies of chlordiazepoxide in various allergic diseases, 1193

Baruch, Dorothy W., and Miller, Hyman: Psychotherapy of parents of allergic children, 990

Bean, George W., and Glaser, Jerome: Incidence of subsequent ragweed pollinosis in patients with perennial bronchial asthma and/or perennial allergic rhinitis, 1126

Benzocaine: Types of sensitization disclosed by positive patch tests to paraphenylenediamine (L. Edward Gaul), 738

Bernton, Harry S., Spies, Joseph R., Coulson, E. Jack, Stevens, Henry, and Strauss, Armar: The chemistry of allergens XIV. The effect of heat and pH on the

precipitin reaction and reagin neutralizing capacity of the castor bean allergen, CB-1C, 393
Blood volume: Probable role of, alteration in angioedema (Ben R. Fisch, O. C. E. Hansen-Pruss and H. O. Sieker), 778
Bostock, John: Case of a periodical affection of the eyes and chest (Historical Document), 894
Boyer, R., Panzani, R., and Turner, M.: The electroencephalogram in migraine and asthma, 491
Brain protein fractions, homologous, Factors affecting the suppression of allergic encephalomyelitis by (Marian W. Kies, Cheng-Mei Shaw, Wilson J. Fahlberg and Ellsworth C. Alvord, Jr.), 849
Bronchial asthma: An investigation into the use of Aralen in (Arthur Stern et al), 980
Bronchial asthma: Clinical use of glutamates (Capomate) in the treatment of resistant (I. S. Epstein), 754
Bronchial asthma: Hydroalcoholic theophylline preparation (Elixophyllin) in the management of (Ely Perlman), 1350
Bronchial asthma, Incidence of subsequent ragweed pollinosis in patients with perennial, and/or perennial allergic rhinitis (George W. Bean and Jerome Glaser), 1126
Bronchial asthma: Occupational, in a baker due to aspergillus (Aaron Weiner), 1004
Bronchodilator-wetting agent solution, Inhalation of (Richard J. Puls), 424
Bronchospasm: Reflex, caused by localized airway obstruction (John L. Guerrant and H. Rowland Pearsall), 1226
Brown, E. A. (co-author): Studies of the dispersion of emulsified extracts by means of incorporated radioisotopes, 983
Brown, E. A.: Tree pollinosis—effects of single annual injections of emulsified extract in 560 multiply allergic patients, XI, 1200
Brown, Earl (co-author): Depo-methylprednisolone in the treatment of ragweed hayfever, 1321
Brown, Ethan Allan: Opsiphylactic treatment of ragweed pollinosis by means of a single annual injection of emulsified extract X, The, 631
Burdon, Kenneth L. (co-author): Studies of an antiserotonin compound (Ro 2-9102) using mice uteri in estrus in a Schultz-Dale apparatus, 1342

C

Cardiospasm: Asthma secondary to (Lowell L. Henderson and Arthur M. Olsen), 266
Castor bean allergen, CB-1C: The chemistry of allergens. XIV. Effect of heat and pH on the precipitin reaction and reagin neutralizing capacity of the (Joseph R. Spies, E. Jack Coulson, Harry S. Bernton, Henry Stevens and Armar A. Strauss), 393
Causation of eczema, urticaria and angioneuritic edema by proteins other than those derived from food: Study XVIII (Historical Document) (I. Chandler Walker), 783
Cavalcade of some hormones and steroids (Edward C. Kendall), 719
Chemical allergens: A review of studies on the relation between sensitization and retention of, by organ tissues (Mitsuteru K. Ishikawa), 525
Chemistry of allergens XIV. Effect of heat and pH on the precipitin reaction and reagin neutralizing capacity of the castor bean allergen, CB-1C, The (Joseph R. Spies, E. Jack Coulson, Harry S. Bernton, Henry Stevens and Armar A. Strauss), 393
Childhood asthma: A double blind study of isoprophenamine in (Ernest M. Heimlich, Rafael C. Harris and Robert E. Smith), 774
Children, allergic: An analysis of the effect of various dosage schedules in hyposensitizing programs for (C. Collins-Williams, H. Edwards, H. Savage, A. Fremes, A. Cole and R. Imrie), 92
Children, allergic: A survey of the serum protein electrophoresis pattern in (Susan C. Dees and Jerome A. Grunt), 50
Children, asthmatic: Mold sensitivities in (Ethel M. Davis), 65
Chlordiazepoxide: Studies of, in various allergic diseases (John P. McGovern et al), 1193
Chlortropbenzyl: Treatment of asthma with (Stephen Fromer), 259
Clinical evaluation of clysmathane (Richard H. Jackson, Homer E. Prince, and Felix McGivney), 620
Clinical evaluation of norisodrine syrup in allergic cough (Richard L. Etter, Warren J. Raymer and Richard H. Jackson), 667

Clinical spirography: Observation in bronchial asthma (Historical Document) (Seeley G. Mudd), 548
Clinical study of a new antihistamine, dimethpyrindene (Forhistal) (J. Warrick Thomas and Frank R. Kelly, Jr.), 876
Clinical use of glutamates (Capomate) in the treatment of resistant bronchial asthma (I. S. Epstein), 754
